SUMMARY

- Professional with experience in full stack development, focusing on MERN stack and DevOps practices
- Skilled in building responsive web applications, RESTful APIs, and database management
- Proficient in cross-functional collaboration, working with development and design teams
- Experience in implementing AI-based solutions for educational management systems

SKILLS

- **Management:** Problem solving, Research Analysis, Presentation skills, Data-driven thinking
- **Business:** Problem Solving, P&L Management, Team Leadership, Stakeholder Relations, Cross-functional Collaboration
- **Programming:** JavaScript (Advanced), Python (Advanced), C++ (Intermediate), C (Intermediate)
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Ant Design, Responsive Design
- **Backend:** Node.js, Express.js, PHP, RESTful APIs, Authentication (JWT)
- **Database:** MongoDB, MySQL, PostgreSQL, Database Design
- **DevOps:** Git, GitHub, Docker, Basic CI/CD, Linux Server Management

EDUCATION

Bachelors of Computer application (BCA)- Computer Science, Lachoo Memorial College, Jodhpur | May 2025

PROFESSIONAL EXPERIENCE

HUBALT FINTECH, JODHPUR

Jan 2024 – Jan 2025

DevOps Engineer

- Contributed to company website development working on both frontend (React.js) and backend (Node.js).
- Assisted in setting up and maintaining Linux servers and database systems.
- Learned and implemented basic CI/CD pipelines to automate code deployment.
- Gained experience with Docker containers for application deployment.

SHEER ANALYTICS AND PRIVATE INSIGHT, REMOTE (KOLKATA) 8MONTHS FELLOWSHIP

Feb 2023 - Jan 2024

Frontend

Web Developer

- Created responsive user interfaces using JavaScript and React.
- Collaborated with backend team to integrate APIs and service.
- Implemented UI components using modern frontend libraries.

SUMMER INTERNSHIP

CYPHERBYTE TECH, VIRTUAL INTERNSHIP

April 2022 - May 2022

Full Stack Developer

Jun 2022 - Jul 2022

- Developed web applications using MongoDB, Express.js, React, and Node.js
- Created RESTful APIs connecting frontend and backend systems

BHARAT INTERN, VIRTUAL INTERNSHIP

Full Stack Developer

- Built web applications using PHP, MySQL, JavaScript, HTML, and CSS
- Implemented user authentication and database functionality

PROJECTS

JEEVIKAA

- Built using MERN stack with WebSocket for real-time features.
- Integrated Firebase (Auth, DB) and Razorpay for secure payments.
- Developed multilingual support and a dynamic admin panel.

College Duniya - AI-Based Teacher and Student Management System

- Developed personalized learning paths using AI algorithms.
 - Built real-time analytics dashboard for tracking student progress.
 - Implemented collaboration tools for assignments and communication.
-

ACHIEVEMENTS

- Conduct weekly workshops on the latest IT innovations and technologies
- Served as the President of the Coding Club during college.
- Successful founder of an ed-tech startup named **CodeCafe**.
- Active contributor to open-source projects
- Experience in teaching computer science concepts to students
